

Università degli Studi di Roma "Foro Italico"

Dear EMH&PA enrolled students,

by the end of December 2016, all teaching information related to the European Master in Health and Physical Activity (content, timetables, study material, exam and thesis sessions, exam results, etc.) and teaching activities (English academic writing course, exams, courses' evaluation) will be included and updated exclusively in the University of Rome Foro Italico Moodle learning platform, currently in progress, at <http://moodle.uniroma4.it/course/index.php?categoryid=50> (www.uniroma4.it/utilità/piattaforma di supporto didattico moodle/LM67INT Attività Fisica e Salute – Health and Physical Activity).

If not already done, please perform a first access to all various subsections of the LM67INT webpage, especially within the "Courses" subpage, so that we can enable you to access the different activities, too.

As a reminder, consider that the credentials to login into the Uniroma4 Moodle learning platform are the same as for your institutional email box, **the only one utilized for official messages.**

Rome, 10 November 2016
